

**LIESCH** Jewelry

## SIZING

Your ring should fit snugly on your finger without risk of falling off. Not too tight. Not too loose. You do not want to be hurting yourself or putting too much pressure on the ring or your finger getting it on and off. It should just be able to fit over the largest part of your finger which is often the knuckle for most people.

Your fingers will swell in warmer weather and vice-versa in cold weather. Measure your finger at the end of the day. Do not measure your finger when it is hot or cold.

Remember that the two hands differ slightly in size; a ring worn on a finger of the left hand will not be a perfect fit for the same finger on the right hand.

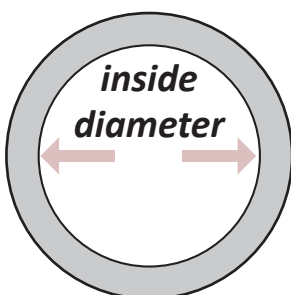

## CONFIRM PRINTED PAPER SIZE

1. **Ring measurements are very precise.** Carefully follow these instructions to obtain an accurate measurement.
2. **Prior to printing**, ensure that Page Scaling is set to “None” on your print dialog box. (To open the print dialog box, press CTRL+P.)
3. **Measure the bar below.** It must be exactly 30 mm long.

## MEASURE CURRENT RING

1. Select a ring that properly fits the intended finger.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the **inside diameter** of the ring.
3. If the ring falls between two sizes, order the larger size.

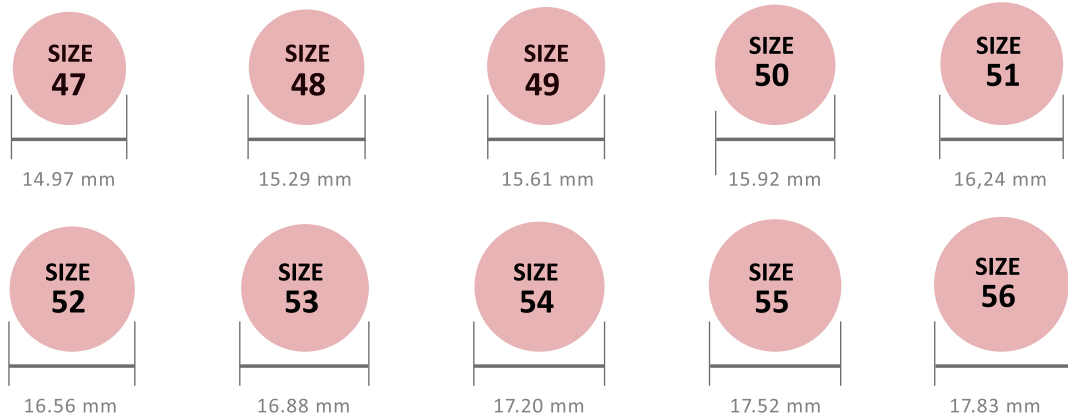

MEASUREMENTS MATCH  
THE INSIDE EDGE OF THE RING
